

**APPLICATION FOR PERMISSION TO CHANGE POINT OF
DIVERSION, MANNER OF USE AND PLACE OF USE OF THE
PUBLIC WATERS OF THE STATE OF NEVADA
HERETOFORE APPROPRIATED**

Date of filing in State Engineer's Office AUG 29 1996
 Returned to applicant for correction SEP 13 1996
 Corrected application filed SEP 19 1996
 Map filed SEP 19 1996

The applicant **Eugene Callahan**, hereby makes application for permission to change the **Point of Diversion, and Place of Use** of water heretofore appropriated under **Existing Permit #61257 for Underground Source**. Not to exceed 1.0 cubic feet per second but not to exceed 28.8 million gallons annually.

1. The source of water is **Underground Source**
2. The amount of water to be changed **one second feet**
3. The water to be used for **Industrial**
4. The water heretofore permitted for **Industrial**
5. The water is to be diverted at the following point **Southeast quarter (SE $\frac{1}{4}$) of the Northeast quarter (NE $\frac{1}{4}$) of Section 1, T26S, R59E, MDM, from which the Northeast corner of said Section 1, T26S, R59E, MDM bears North 01°00'00" East a distance of 2,640.00 feet.**
6. The existing permitted point of diversion is located within **Northeast quarter (NE $\frac{1}{4}$) of the Northeast quarter (NE $\frac{1}{4}$) of Section 1, T26S, R59E, from which the Northeast corner of said Section 1, T26S, R59E, MDM, bears North 13°00'00" East a distance of 1,045.00 feet.**
7. Proposed place of use **Portion of NW $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$, 8.5 acres more or less; SW $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$, 10 acres more or less; Portion of SE $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$, 8.5 acres more or less; NE $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$, 1.0 acre more or less; Section 1, T26S, R59E, MDM. (SEE MAP)**
8. Existing place of use **West half (W $\frac{1}{2}$) of the Southeast quarter (SE $\frac{1}{4}$) of the South-east quarter (SE $\frac{1}{4}$) of the Northeast quarter (NE $\frac{1}{4}$) of Section 1, T26S, R59E, MDM.**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works **Drill 8" steel cased well, install submer-sible pump, piping to ponds at wash plant as required for make-up water.**
12. Estimated cost of works **Drilling \$20,000 + \$70,000 for pump and facilities.**
13. Estimated time required to construct works **One year.**
14. Estimated time required to complete the application of water to beneficial use **Three years.**
15. Remarks: **Wash plant requires approx. 250 gpm make-up water for 1,000 yd/day operation, which would be 200 acre-feet/yr, depending on size of actual operation and percentage of water recovered. The wash plant is in support of a sand and gravel quarry operation.**

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore temporarily granted under Permit 61257 is issued subject to the terms and conditions imposed in said Permit 61257 and with the understanding that no other rights on the source will be affected by the change proposed herein. This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance issued under the provisions of NRS 533.371 for a finite period of time. This permit will expire on May 1, 2006 and all rights herein will revert back to the source. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This change is issued as a preferred use and any change of the point of diversion outside of the general area of this permit will not be allowed.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed 28.8 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

April 23, 1997

Proof of completion of work shall be filed before:

May 23, 1997

Application of water to beneficial use shall be filed on or before:

May 1, 2006

Proof of the application of water to beneficial use shall be filed on or before:

Permit Expires May 1, 2006

Map in support of proof of beneficial use shall be filed on or before:
